# Shanghai Minmetals

Your Reliable Partner for

### **Professional Washers Solution**

- Shanghai Minmetals –as a professional supplier especially in Washers Serials having been in line of fasteners since 1949
- With high quality and reliable products, we enjoy perfect reputation in the international market
- 1/3 of our turnover is for OEM processing for well-known fasteners groups over the world
- Fasteners with DIN, ANSI, BS and JIS standard
- Favorable price and satisfactory service
- Looking for partners worldwide and custom orders available

The Fastener&Hardware Solution includes:

|Washers | Bolts | Nuts | Wood screws | Machine screws | |Self-tapping screws |Rivets | Anchors | Fixings and Plugs|

**CERTIFIED COMPANY** 

## Wuxi Anshida Hardware Co., Ltd.

#### **Pursue Perfection with Persistence**

Established in 1993, Wuxi Anshida Hardware Co.,Ltd. has become one of the leading rivet and rivet nut manufacturers in China, exporting products to over 30 countries and regions. Covering an area of 26,000 square meters, it sells over 3 billion pieces of rivets annually and has achieved annual sales growth of 10%.

To adapt to the changing market, Wuxi Anshida continues to introduce advanced production equipment and technologies from Taiwan and Italy. It has passed ISO9001:2000, TS16949:2001 and AS9100 certifications and its products can be made in accordance with standards of GB, IFI, DIN and ISO.

Li Huiyuan, president of Wuxi Anshida, reveals the highest level of his business pursuit, "I hope that when the customers want to buy rivets, they will think of Wuxi Anshida immediately. After using our rivets, they will no longer think about working with others. To fulfill this goal, we need to pursue perfection with persistence."

## Transformation from a small village enterprise to an influential rivet supplier

"Without painstaking effort, there will be no exquisite products. With regard to the manufacturing industry, quality must be put first and production of unqualified products must be stopped." Li concludes the way of business management in one word – perfection. "Only by perfect products and good quality can we maximize profits."

Looking back on the past, Li told that Wuxi Anshida was just a small village-run enterprise on the verge of

bankruptcy. In the first half of 1993, Li took over the rivet factory. For Li knew nothing of this industry at first, he had to start from the very beginning. Li spent much of his time staying at the 800-square-meter workshop to carefully study the machines and products. He even tried to take the machine to pieces and learned from the skilled workers on how to assemble it. Day by day, his professional knowledge on fastener industry improved gradually.

At that time, he found that the biggest problem of his company was product quality. The products were restricted to applications such as bags, building doors and windows, etc. which had less market competitiveness. To meet the higher requirements of customers, Li did promotion during the day and found out the solutions to improve product quality with the workers at night.

With the belief of "making every product flawless", Li turned around the losses soon. Since then, Wuxi Anshida has maintained steady growth. Perfection has become part of the company's entrepreneurial spirit. Today, 70% of the company's products are exported to the European and American markets. Even the European customers comment: "Wuxi Anshida, our first choice for rivets."

## Target at high-end market and high quality partners

Having communicated with international industrialists and done lots of researches, Li realized that the low and mid-end rivet markets has become saturated, while the high-end products used in precision instrument are popular in the market and enjoy high added value. Wuxi Anshida accordingly made the transition and turned to the high-end products.

Wuxi Anshida has started to establish partnership with some R&D institutions in Tianjin in terms of technological exchanges since 2004. In addition, it also introduced the most advanced equipment, materials and technologies, and provided training opportunities for the workers, striving to make it a rivet supplier of the first rank. So far, Wuxi Anshida has developed more than 30 types of fastener specifications. The rivets are widely used in the aerospace, automotive, high speed railway, telecommunications, and other precision industries.

Good products bring in good partners. Nowadays, Wuxi Anshida's customers are no longer baggage factories, but the world's renowned companies from the aviation, automotive and other high-end industries.

At the end of the interview, Li summarized, "Whether a company is successful or not depends on the concepts, ideas and requirements of its person in charge. No matter which industry we are in, we do not have to be a big company, but at least we should pursue perfection."

Thread Coating Machine,
which is also called Fastener
Coating Machine. It's
exclusively used in gluing and
coating for all kinds of thread
in screw. The machines are
homogeneous, fast and
repeatable for coating, they
are widely applied in
fasteners, such as
threaded rods, screws, studs,
etc. And the size is from M5-M30 for all kinds of
fasteners.

The advantages of Coating Machine is obvious, it can inhibit the products' corrosion situation and restrain vibration, enhance the screws' reliability and pneumatic components during using period, because the machine makes the products to be anaerobic.

#### The advantages:

- 1. The machine could apply in all sizes of screws.
- 2. The glue of the machine could spread on the thread sides regularly.
- 3. The position of coating glue on thread could be adjustable.
- 4. The glue point is flexible.
- 5. Coating is homogeneous, fast and repeatable.
- 6. The machine is high precision and long service life.
- 7. The machine is easy to operate.
- 8. The fixture is simple to replace.
- 9.It saves time because of big supply device.

# Thread Locking Glue Dispensing Machine

http://98023v.chinafastener.info www.D-create.com.cn

Established in 2011, D-create (Suzhou) Automation Equipment Co., Ltd. is well located in Xiangcheng, Suzhou, China. We are a professional manufacturer & service provider of Auto Dispersion Glue Machine, such as Multiaxial Coating Manipulator, Thread Coating Machine, Silica Gel Coating Machine and Two-component Glue-Pouring Machine, which are our own R&D equipment. The machines are widely applied in auto parts, electric appliance, electronic, fasteners, LED, solar energy, elevators and other industries.

Our company is a R&D enterprise of Auto Dispersion Glue Machine, we could customize relevant auto machines in addition to the standard products because of accumulated coating experience. So D-create has become an automation equipment manufacturer with good reputation and core competence.

Adhering to the principle of "Quality creates the future, service creates the brand", D-create has formed a perfect sales and after-sales system, promoting actively the industry's development.

## Dongguan STL Metal Products Co., Ltd. Practice Brand Concept By Setting up Fatigue Test Center

ongguan STL Metal Products Co.,Ltd. has experienced continuous growth in export business for European and US railways in recent years. Aiming to practice its quality-oriented brand concept and ensure safety, stability and reliability of its products, Dongguan STL has set up a washer fatigue test center with total investment of RMB 800,000 yuan. Inclusive of initial investment in R&D, the expenditure exceeds RMB 1 million yuan.

"A locking washer works together with a bolt and a nut to prevent loosening. Regarding to the actual application effects of all kinds of known and new screws, nuts, washers and other fasteners in the market, we need to employ the testing equipment to check if they are qualified or not,

especially their service life and times of usage. Since our products are applied to many critical fields, such as wind power, nuclear power, railways, bridges, offshore mining platforms, etc. it is very dangerous to rely on the theoretical parameters without using professional testing equipment. We believe that even the failure of a tiny nut, bolt or washer may lead to fatal accidents," said Xiong Yejun, general manager of Dongguan STL.

As a professional manufacturer of high-performance locking washers,

Dongguan STL is well aware of the importance of quality stability. The company has worked with Professor Zhou (Master of Engineering Degree in Germany) from Guilin Ruite Testing Machinery Co.,Ltd. to develop a new fatigue testing machine for spring washers.

"In terms of performance and software application, it is the first and leading equipment in China, which can carry out up to 400,000 times of fatigue testing for washers per day. By utilizing formulas, the equipment can automatically calculate the mechanical value after the corresponding specifications are entered in the software. At present, the fatigue testing of our disc spring washers used in the European railway sector can exceed 1.8 million times," Xiong proudly introduced.

It is reported that even today the national test center has not been equipped with such advanced equipment.

The establishment of the new test center means that the technical gap between Dongguan STL and its competitors is getting wider.

The testing center is highly appraised and trusted by its French customer, who is convinced of Dongguan STL in the field of railway fasteners and will authorize Dongguan STL to produce hundreds of millions of railway fasteners every year. It is customer's encouragement that stimulates Dongguan STL to move forward and achieve continuous growth. There is no doubt that the introduction of the fatigue testing equipment will bring tremendous changes to the business development of Dongguan STL.

Xiong continued, "By testing equipment, we can clearly learn that the service life of washers varies when they are produced by different steel mills, of different steel grades, of different hardness of steel, by different anti-corrosion treatment, and under different temperature. And we can also see the differences of service life between Dongguan STL washers and those from other competitors."

In the future, Dongguan STL will establish collaboration with more organizations to develop more useful equipment, so as to ensure the excellence of washers and strengthen its international presence in the field. What's more, Dongguan STL will continue to fulfill the spirit of the craftsman, making itself a Chinese time-honored company with over 100 years of history.

#### **About Dongguan STL**

Dongguan STL is dedicated to developing and studying locking washers, and providing comprehensive solutions of locking washer skills. Products are widely used in locomotives, automobiles, aerospace, weapons, nuclear, electrical appliances and other industries. In addition to the domestic market, its products are also exported to Europe, USA, Southeast Asia, Russia and other countries or regions, and successfully supplied to large well-known spring manufacturers, such as Mitsubishi Group (Japan), NHK Group (Japan), GERB (Germany), General Standards Corporation (USA), Alco (USA), etc.

## Yuxin Fastener System

## Dedicated to Becoming the Leading Manufacturer of Anchors in China

Yuxin Fastener System, since its establishment, has been dedicated to becoming the leading manufacturer of anchors in China.

For years, Yuxin Fastener has been committed to providing every customer with high quality products and excellent service, and built high reputation both at home and abroad.

As a professional manufacturer of sleeve anchors, wedge anchors, drop in anchors, chemical anchors, hollow wall anchors, heavy duty shield anchors, toggle bolts, express nail

anchors, nylon anchors and nylon hammer drive anchors, Yuxin Fastener has experienced a fast development in the past years. Now the company adds the Sheet Metal Line so as to meet different needs from customers. These products find ready markets in Europe, America and Asia.

Ms. Amy Fung, manager of Yuxin Fastener, attributes the fast development of the company to its quality products, outstanding service and competitive prices.

"Quality Products On Time."

Knowledgeable, experienced, dedicated people who are fully supported with state-of-the-art testing equipment and procedures make it possible for Yuxin Fastener to guarantee "quality products" with confidence and a proven track record.

"From the raw material to delivery, every process should be strictly took according to customers' requirement," Amy points out.

Yuxin Fastener also has a strong reputation for its commitment to service. From the inquiry to production arrangement and to delivery, all details from customers should be considered. If some of the detail

that the customers have been ignored, Yuxin would take the initiative to communicate with customers in order to fully satisfy them.

Detail makes success. It is these considerate services that makes Yuxin Fastener become a trustworthy partner in this field. Existing customers keep coming back because they know they can rely on Yuxin Fastener and its promises.

New customers keep coming in, attracted by the company's quality product and considerate services.

"Customer satisfaction is our other important goal, to improve the relationship with all our customers, ensuring that we meet all of their quality expectations-for the product and for logistics and technical support in all details," Amy mentions.

In addition, Yuxin Fastener push the 5S Management System to realize the company's philosophy of "Quality Stability, Technology Innovation, Customer Satisfaction".

For Yuxin Fastener the key to growth is to continue to offer high quality product and satisfied service that guarantees a highly specialized professional supplier of anchors and sheet metal. "We are dedicated and committed when a customer is in the need to find a solution," Amy says. "We will continue on our path to become the leading manufacturer of anchors in China."

#### Dongtai Huawei Standard Component Corporation

#### **Develop New Products, Target on Mid and High-End Markets**

Adhering to the business philosophy of "responsibility, initiative and innovation" and the service commitment of "integrity based and quality first", Dongtai Huawei Standard Component Corporation has been insisting on implementation of brand strategy and expansion of sales market. Nowadays, its products have been exported to customers from the United States, EU, Southeast Asia and other countries and regions.

In the face of fierce market competition, Dongtai Huawei takes the initiative to develop the promising markets, such as yacht accessories, telecommunication parts, etc. to seek for further business opportunities.

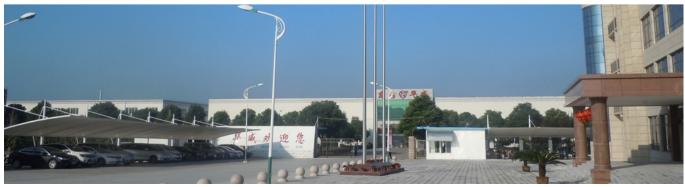

Furthermore, Dongtai Huawei

also has imported state-of-the-art equipment to fully engage in the production of new products.

To offer customers a 100% quality guarantee, Dongtai Huawei begins the quality control from the source to delivery inspection, which are strictly supervised by rigorous inspection standards, advanced inspection equipment, and professional inspection technicians.

In recent years, Dongtai Huawei has been attached great importance to innovation and transformation. It has introduced more than 40 sets of Taiwan-made precision automatic lathes, multi-station cold headers, cold extrusion machines and CNC lathes. The products are widely used in the fields of communications, electronics, aerospace, etc. It is worth mentioning that Dongtai Huawei has become the supplier of world-renowned companies, such as Siemens, Nokia, Eaton, etc.

#### **Your One-Stop Supplier of Stainless Steel Fasteners**

Established in 1992, Dongtai Huawei Standard Component Corporation takes the geographical advantage of Dongtai, a well-known stainless steel base in China. It has fixed assets of over 100 million yuan, covering an area of more than 80,000 square meters and employing more than 300 people. It provides a variety of technical services, such as cold heading, stamping, cold extrusion, automatic machining, precision casting, etc. Its main products include stainless steel fasteners, cold extruded parts, stampings, self-clinching parts, and CNC machining parts.

Dongtai Huawei was the first company in Dongtai City that passed ISO 9001 international quality system certification in 1999. In December 2005, it obtained ISO14001 environmental certification. Its brand "FL" was awarded "Famous Trademark

in Jiangsu Province" and "Well-Known Brand in Yancheng City". Furthermore, it has been awarded "Top 10 China Fastener Prestigious Brand" and has been titled "Trustworthy Company in Jiangsu Province" for many years. In 2015, it was awarded "Famous Trademark of China".

A manufacturer for SUS410 & A2 & A4 DIN7504 in China with more than 10 years expenience. Material: 304+1035/316+1035/410/A2/A4. Diameter:#6-M8. Drilling ponit: Self drilling,self tapping,Type 17. Length:13MM to

Tel: +86-769-83128860/65 Fax: +86-769-831298900 Fmail: boito@vip.163.com

Website: http://33025v.chinafastener.info, www.boitoscrew.com

#### Changzhou Buddy Automotive Parts Co., Ltd.

Non-standard fasteners, special-shaped cold formed parts, rich experience in complex parts with multi-processes (cold forming+).

Tel: +86-519-83665229-8048 Fax: +86-519-83660260 Email: xxf@china-buddy.com

Website: http://47272v.chinafastener.info, www.buddv2005.com

#### Bolt Mfg. Trade Ltd. Haiyan

Hex bolts, carriage bolts, hex lag bolts, hex nuts, threaded rods, washers. **B** CLT

Tel: +86-573-86178181, 86178282, 86178383

Fax: +86-573-86177766 Email: sales@boltmfa.com

Website: http://83420v.chinafastener.info, www.boltmfg.com

#### Changzhou Wujin Jiangnan Special Type Screw Co., Ltd.

Lock bolts, blind rivets, semi-tubular rivets, shoulder rivets, welding nuts, non-standard bolts.

Tel: +86-519-86488200 Fax: +86-519-86489201

Email: sales@jiangnan-screw.com

Website: http://3167v.chinafastener.info, www.jiangnan-screw.com

#### BSC Corporation Ltd.

Flat washers, spring washers, square washers, marble angles, stamping parts, stainless steel bolts, stainless steel nuts, stainless steel threaded rods, steel fasteners.

Tel: +86-21-56383752, 54488960

Fax: +86-21-56383751

Email: export@bscmetal.com, billow su@263.net Website: http://17071v.chinafastener.info, www.bsci.cc

#### Chengzhi Metal Mfr. Co., Ltd.

Self-tapping threaded inserts, CNC precision parts, selfclinching nuts, self-clinching standoffs, plastic, nuts, studs, bolts, hardware, weld screws, blind rivets, panel fasteners, panel screws, K-nuts, female/male spacers

Tel: +86-755-61168328 Fax: +86-755-27685476

P14

#### Changshu City Standard Parts Factory

Chipboard screws, fasteners for automobiles, hex head bolts, hex socket screws, hex nuts.

Tel: +86-13962366605 Fax: +86-512-52811984 Email: 1401545600@qq.com

Website: http://8608v.chinafastener.info, www.china-dali.cn

Nails, screws, bolts and nuts, iron wire and meshes hinges, mortise locksets, paint brushes.

Fax: +86-510-82751635, 82758973

Email: info@cwbjs.com

Website: http://705v.chinafastener.info, www.worldbest-china.com

## Congrats Industrial Components (Suzhou) Ltd.

Maxlok, Interlock, Briv, Grovit, Avdelok, Monobolt, Hemlok, Bulbex, Klam-Tite, Avex, Hexsert, Eurosert, Avdelok LD, Avdel 74200

Tel: +86-512-53207676, +86-18816639530

Fax: +86-512-53207676 Email: 460814020@qq.com

Website: http://99605v.chinafastener.info

## Dongguan QianChen Hardware Factory

Various non-standard fasteners, including non-standard screws, non-standard nuts, non-standard bolts, non-standard tapping screws, rivets, washers and spring washers, micro plug-pins, plug-feet and core axles, etc.

Tel: +86-769-83123390 Fax: +86-769-83123380 Email: info@gc-screw.com

Website: http://99209v.chinafastener.info, www.qc-screw.com

## Dongguan Guoxing Hardware Co.,Ltd.

Stainless steel self-drilling screws. Sizes range from #6-#16. Drill point size from L2 - L5. Length up to 200mm. Variety of head types.

Tel: +86-769-81776628 Fax: +86-769-81776627 Email: galand@vip.sina.com

Website: http://36527v.chinafastener.info, www.gd-gxwj.com

## Dongguan Sanhewlett Metal Products Co., Ltd.

Non-standard fasteners, machine screws, self-tapping screws, insert nuts, rivets, hollow bolts & nuts.

www.sanhewlett.com.cn

## Dongguan Haoyijia Machinery & Equipment Co.,Ltd.

Automatic washer assembly machines, spring washer machines, vibration plates and nailling selecting machines.

Tel: +86-769-82092372, +86-13332611988

Fax: +86-769-87565719 Email: jinyi71@21cn.com

Website: http://43452v.chinafastener.info

### Dongguan STL Metal Products Co.,Ltd.

Locking washers. DIN25201, DIN92550, S, VS, NFE2511, NFE-3L, 4L, SN60727, VSKD, VSK, etc.

Website: http://41282v.chinafastener.info, www.dg-jyd.com

## Dongguan Olang Hardware Machinery Co.,Ltd.

Four-axis automatic tapping machines, two-axial automatic tapping machines, circular automatic tapping machines, blind hole single shaft automatic tapping machines, blind hole double-shaft automatic tapping machines, etc.

Tel: +86-769-81239005 Fax: +86-769-81239005 Email: 1523391987@qq.com

Website: http://99464v.chinafastener.info

## Dongguan Wurong Hardware Co.,Ltd.

Hex bolts, set bolts, hex socket cap screws, hexagon socket button head screws, hex socket head screws, recoil inserts, nuts, nylon screws, nuts, circlips for shaft.

Tel: +86-769-85473116 Fax: +86-769-85472213 Email: pan@dgwr.com

Website: http://49097v.chinafastener.info, www.dgwr.com

## Dongguan Xuanyo Metal Products Co.,Ltd.

DIN/ANSI/JIS/GB hex nuts, flange nuts, square nuts, welding nuts, disc cap, K-cap, nylon nuts, sleeve nuts, DSO nuts and all kinds of non-standard nuts.

Tel: +86-769-81066841, +86-13728697795

Fax: +86-769-83208893 Email: dgxuanyo@163.com

Website: http://86326v.chinafastener.info

## Component Corporation

Stainless steel hex head cap screws, hex socket head cap screws, anchor bolts, threaded rods, wire rods, self tapping screws, thread forming screws, expansion bolts, square neck bolts, punch products, etc.

BC

Tel: +86-515-85923866, +86-515-85923919, +86-21-68753496

Fax: +86-515-85525866, +86-21-68753596

Email: huawei@dthuawei.com

Website: http://12317v.chinafastener.info, www.dthuawei.com

## Dongguan Yingxing Metal Surface Treatment Materials Co.,Ltd.

High temperature coating agent series, medium temperature coating agent series, no pickling coating agent series, drawing series, high carbon steel series, conventional lubricants, high grease lubricants.

Tel: +86-13712493434 Fax: +86-769-81060629 Email: dgsyx@dgsyingxing.com

Website: http://81391v.chinafastener.info, www.dgsyingxing.com

## Dongtai Huisheng Stainless Steel Products Co.,Ltd.

Stainless steel flat washers, square cushions, round cushions, spring washers, internal and external tooth washers, stainless steel washers.

Tel: +86-515-85917968 Fax: +86-515-85917998 Email: fei516@yeah.net

Website: http://51091v.chinafastener.info, www.hhfast.com

## Dongguan Zhengmao Precision Hardware Co., Ltd.

Self clinching nuts, self clinching standoffs, self-clinching blind fasteners, studs, flare-in nuts, floating self-clinching fasteners, self-locating projection weld nuts, flush nuts, pilot pins, right angle clinch fasteners.

ZHENG MAO

Tel: +86-769-81160350

Fax: +86-769-83691051

Email: raisesunmetal@163.com

Website: http://99852v.chinafastener.info

## Dongtai QB Stainless Steel Co.,Ltd.

Bolts, nuts, threaded studs, flanges, pipe fittings.

Tel: +86-515-85520679 Fax: +86-515-85523066 Email: davy@abfastener.com

P2,3

Website: http://2989v.chinafastener.info, www.qbfastener.com

P28

### Donglong Metal Mold Machinery Co., Ltd.

Main die, punch die, case, nut-forming die, folder die, 6 segments die, cut-off blade, shear die, punch, injector pin, sleeve, washer, thread rolling die and multi-stroke die, etc.

Tel: +86-769-83180318, 83191319

Fax: +86-769-83193891

Email: dl.sales01@gd-donglong.com

Website: http://45946v.chinafastener.info, www.gd-donglong.com

#### Fenghua City General Standard Components Factory

High strength standard and non-standard parts for automobiles and motorcycles. Wheel bolts, wheel nuts, flange bolts, flange nuts, hex head bolts, screws, self-tapping screws, hex nuts, anchor bolts, special fasteners, etc.

Tel: +86-574-88915038 Fax: +86-574-88927698 Email: web@fhtongyong.com

Website: http://1372v.chinafastener.info, www.fhtongyong.com

P17

Blind rivets, screws, nuts, springs, hardware parts and Powerchang

Tel: +86-757-86610511 Fax: +86-757-86617867

Email: sales@qingchang.com.cn

Website: http://85429v.chinafastener.info, www.qingchangrivet.com

#### Haining R-Best Hardware Co., Ltd.

All kinds of rivet nuts, flat head, reduce head, countersunk head, plain body, knurled body, hex body, open end, close end, etc. Materials include carbon steel, stainless steel, aluminum, etc.

Tel: +86-573-87627684 Fax: +86-573-87627685 Email: sales@khfastener.com

Website: http://97019v.chinafastener.info, www.khfastener.com

#### GuangDong HeJin Hardware Products Co., Ltd.

Screw in Grade 12.9, 10.9 and 8.8 & SS screws, DIN912/GB70 hexagon socket head cap screws, DIN931-933/GB5782-5783 hexagon head screws, DIN7991 hexagon socket countersunk head screws, ISO7380 hexagon socket button head screws, ISO7379 hexagon socket head shoulder screws, DIN916-45H alloy steel hex socket head set screws.

Tel: +86-18923191655

Fax: +86-757-85957282, +86-20-81121965

Email: 429890629@gg.com

Website: http://45453v.chinafastener.info

#### Haining Taili Metal Products Co., Ltd.

Wood screws, tapping screws, chipboard screws, eye bolts, shelf brackets, drawer slides, hinges, threaded rods, spring toggles, metal frame anchors, sleeve anchors, drop in anchors, wedge anchors, hammer drive anchors, hex bolts, hex nuts, self-tapping screws, nail screws.

Tel: +86-573-87666234, +86-15990338010

Fax: +86-573-87666234 Email: helen@bestfast.com.cn Website: http://42936v.chinafastener.info

Website: http://97308v.chinafastener.info, www.dingtour.com

P83

### Haiyan Fasteners Factory

Carriage bolts, hex head bolts, flange bolts, rivets, nonstandard fasteners, furniture fasteners,

Tel: +86-573-86513188, 86511248 Fax: +86-573-86511248

Email: hyxugx@126.com, yongjin@mail.jxptt.zj.cn Website: http://10051v.chinafastener.info, www.hyff.com

### Haiyan Minghua Standard Parts Manufactory

Wood screws, self tapping screws, machine screws, chipboard screws, etc.

Tel: +86-573-86153766, +86-13906831766

Fax: +86-573-86111706 Fmail: hyminhua@126.com

Website: http://40366v.chinafastener.info

### Haiyan Hongrun Fasteners Co., Ltd.

Grade 4.8, 8.8, 10.9 and 12.9 hexagonal flange bolts (including non-slip toothed flange screws, wheel hub screws and seat belt screws), high strength auto and motorcycle fasteners and other kinds of non-standard special items.

Tel: +86-573-86806666, +86-13506664650, 13506666092

Fax: +86-573-86866789 Email: xjw@wz-hr.com

Website: http://20356v.chinafastener.info, www.jxhyhr.com

### Haiyan Qunxing Nuts Co., Ltd.

M3-M30 nuts, high-strength nuts, galvanized nuts, black nuts, flange nuts, weld nuts, brass nuts, and various shaped nuts.

Tel: +86-573-86815261 Fax: +86-573-86815262 Email: 402245023@gg.com

Website: http://37468v.chinafastener.info

### Haiyan Jiafeng Standard Parts Factory

DIN934, DIN985, DIN6923, DIN439, DIN917, K nuts, all kinds of non-standard nuts.

Tel: +86-13606737647, +86-573-86058083

Fax: +86-573-86168579 Email: 306889542@qq.com

Website: http://86045v.chinafastener.info

Hexagon bolts, flange bolts, hexagon nuts, flange nuts, washers, threaded rods, self-tapping screws, self-drilling screws, hexagon wood screws.

### Handan Chengjia Metal Products Co., Ltd.

Mechanical anchoring and expansion bolts.

Tel: +86-13673202828 Fax: +86-310-6660076 Email: 1120431713@qq.com

Website: http://98988v.chinafastener.info,

www.hdcjjs.com

#### Handan Ruiqiang Fasteners Manufacturing Co.,Ltd.

Hexagon bolts, customized products: bolts with reduced shank, tower bolts, carriage bolts, threaded rods, studs, galvanized bolts, HDG bolts, DIN (931, 933, 934), matched nuts, special-shaped bolts.

Tel: +86-310-6889158 Fax: +86-310-6888669 Email: rqbzj@126.com

Website: http://52197v.chinafastener.info, www.hbrqjgj.com

### Handan City Jingheng Anchoring Co., Ltd.

BS/ASME bolts (hex bolts, carriage bolts), nuts, screws (wood screws, drywall screws) and anchors (sleeve anchors, anchor bolts, wedge anchors, drop-in anchors, cut anchors, metal frame anchors, chemical anchors, antiskid shark fin anchors, shield anchors, adhesive, etc.)

Tel: +86-310-5607000 Fax: +86-310-5607000

Email: handanjingheng@126.com

Website: http://91190v.chinafastener.info, www.hdjhmg.cn

### Handan Yongqiang Fasteners Co.,Ltd.

Grade 4.8, 6.8, 8.8, 10.9, 12.9 high strength bolts and nuts, high strength hex bolts, flange bolts, compressor bolts, IFI bolts, BS bolts, etc.

Fax: +86-310-6889283

Email: yongqiangjingu@163.com Website: http://97519v.chinafastener.info

### Handan Jinggong Construction Anchor Manufactory Co.,Ltd.

Sleeve anchors, wedge anchors, hammer drive anchors, shield anchors, drop in anchors.

Tel: +86-310-6607999, +86-13932012900

Fax: +86-310-5139520 Email: 1505664425@qq.com

Website: http://69481v.chinafastener.info, www.jinggong-bzj.com

### Hangzhou DingYuan Metal Washers Co.,Ltd.

Spring washers and flat washers, stamping parts.

Tel: +86-571-83782296 Fax: +86-571-82875869

Email: sales@dyfasteners.com

Website: http://23505v.chinafastener.info, www.dyfasteners.com

### Hangzhou Quanling Standard Component Co.,Ltd.

Carbon steel screws with a diameter ranging from 2.9mm to 8mm and a length range from 2.5mm to 150mm.

Various head shapes and tail shapes are available.

Tel: +86-571-88792667 Fax: +86-571-88791659

Email: hangzhouquanling@126.com

Website: http://11766v.chinafastener.info, www.quanlingscrew.com

### Jiashan East Sun Imp. & Exp. Trade Co., Ltd.

Fasteners (bolts, nuts, washers, anchors, screws), DIN934, wedge anchors.

Tel: +86-13666782181
Fax: +86-573-89118009
Fmail: andv.isix@hotmail.com

Website: http://59196v.chinafastener.info, http://east-sun-fastener.com

#### Hebei Xiangsheng Fasteners Manufacturing Co.,Ltd.

Threaded rods, anchors, drop-in anchors, hex bolts, flange bolts, carriage bolts, stud bolts, washers, spring washers, nuts, hex nuts, wing nuts, flange nuts.

Tel: +86-15030082624 Fax: +86-310-6871999 Email: 1494510413@qq.com

Website: http://98853v.chinafastener.info, www.hbyxjgj.com

### JiaXing GalleBall Auto Parts. Co.,Ltd.

U bolts, lifting lugs, weld nuts, non-standard nuts, auto parts

Tel: +86-573-85920717 Fax: +86-573-85920712

Email: galleball \_ zhang@163.com Website: http://99892v.chinafastener.info

#### Jiangsu AWD Fastener Co.,Ltd.

Waterproof folding rivets, stainless steel blind rivets, hemlock rivets, countersunk head inlock blind rivets, inlock blind rivets, iron outlock blind rivets, stainless steel monogrip type blind

P83

rivets, sealed type blind rivets, countersunk 48 outlock blind rivets, iron multigrip type blind rivets, open type blind rivets, etc.

### China's steel demand has peaked

China's demand for steel has peaked and the coming 14th Five-Year Plan period (2021-25) will witness a decrease in steel consumption in the construction industry, while demand in the manufacturing sector is expected to remain at the same level, according to a senior official.

During the period, steel consumption will mainly occur in the manufacturing industry, supplemented by needs in construction, said Shi Hongwei, director of China Steel Development & Research Institute.

Specifically, steel consumption is expected to remain 600 million metric tons per year, with the manufacturing sector taking up over 60 percent.

Shi said that because steel products are always being upgraded, steel consumption in this sector will level off.

According to the statistics by the China Association of Automobile Manufacturers (CAAM), China's automobile output last year was 29 million. Theoretically, in 2027, or 10 years later, these cars will turn into scrap steel, and there will be a demand for new steel.

He pointed out that China has experienced two rounds of large-scale infrastructure construction periods in the past years. As infrastructure construction in the country matures, there will be a gradual decrease in steel consumption in related sectors during 2021 to 2025.◆

# Shanghai Prime Machinery to sell bearings business to parent

Shanghai Prime Machinery said it agreed to sell the entire equity interests in Shanghai Electric Bearing Co., Ltd. for RMB 58.85 million to controlling shareholder Shanghai Electric (Group) Corporation.

Electric Bearing is principally engaged in manufacture and sale of bearings, bearing parts and semifinished bearing products.

Shanghai Prime is expected to recognize a loss of about RMB 364,000 from the disposal. It is intended that the net proceeds will be used as general working capital and capital expenditure for the Group and/or to fund new investments of the Group should suitable opportunities arises.

# Made in China 2025 roadmap updated

China aims to become the world's leading manufacturer of telecommunication, railway and electrical power equipment by 2025, as the country ramps up its implementation of the Made in China 2025 strategy, according to a new roadmap released recently.

Qu Xianming, an expert involved in drafting the updated version of the Made in China 2025 technology roadmap, said China has already made great strides in the above three areas, but more efforts are needed to crack the bottlenecks of key components in order to achieve global supremacy.

# China's auto sales post double-digit growth in January

China's auto sales returned to double-digit growth in January due to a low base. About 2.8 million vehicles were sold in January, up 11.6 percent year on year, according to the China Association of Automobile Manufacturers (CAAM).

The growth was faster than the increase of 0.1 percent in December and 3 percent in 2017. The CAAM attributed the surge to a relatively low base in the same period last year, noting that sales were down 8.2 percent from the previous month.

New energy vehicle (NEV) sales were strong in January, soaring 430 percent year-on-year to reach about 38,000 vehicles, according to CAAM. The robust growth came as China intensified efforts to encourage the use of NEVs to ease pressure on the environment, by offering tax exemptions and discounts for car purchases, and ordering government organizations to buy more new energy vehicles.

China remained the world's largest auto market in 2017, with some 28.88 million vehicles sold, according to CAAM.

In January, some 2.7 million vehicles were produced, up 13.6 percent year-on-year but down 11.6 percent monthon-month. About 79,000 vehicles were exported, up 36.3 percent from a year earlier, according to the CAAM.

The government expects new energy vehicle output and sales to hit 2 million annually by 2020, and overall auto output to reach around 30 million by 2020 and 35 million by 2025, according to a plan released last year.◆

### China urges reversal of steep new US tariffs

China urged the United States on March 9 to revoke its decision to impose immediate, steep tariffs on imports of foreign steel and aluminum products, which the Ministry of Commerce said would seriously disturb global trade.

China's move came after US President Donald Trump signed two proclamations on March 8 to levy a 25 percent tariff on steel and a 10 percent tariff on aluminum while offering potential exemptions for Canada and Mexico. Trump said the penalties may "go up or down depending on the country, and I'll have a right to drop out countries or add countries".

Wang Hejun, head of the trade remedy and investigation bureau of the Ministry of Commerce, said the US measures are in essence trade protectionism in the guise of national security. Most US steel and aluminum imports are for civil use and by no means impair US national security.

# Taiwan fastener exports hit record high

Taiwan fastener exports volume reached 1.59 million tons in 2017 with the value of around 4.3 billion USD, hitting the highest record.

The recovery of North America's economy and the rise of steel prices mainly contributed to the growth of Taiwan's fastener exports.◆

Taiwan Fastener Exports during 2013 to 2017		
year	Export	Export
	Volume (tons)	Value (USD)
2013	1.459 million	3.86 billion
2014	1.595 million	4.25 billion
2015	1.573 million	4.07 billion
2016	1.536 million	3.79 billion
2017	1.597 million	4.29 billion

# CSC to hike prices for Q2 deliveries as global steel supplies remain tight

China Steel Corp (CSC), Taiwan's largest steelmaker on February 27 said it would raise domestic product prices by an average of 4.2 percent for deliveries in the second quarter of 2018 to reflect an uptrend in global steel prices.

The 4.2 percent increase marks the third consecutive price hike by CSC after the company in November last year announced a 1.5 percent price increase for this quarter's shipments, company data showed.

Based on the price adjustments, CSC would raise the prices for all products by an average of NT\$914 per tonne for next quarter's contracts.

The Kaohsiung-based steelmaker said in a statement that it would hike prices for benchmark hot-rolled sheets and coils by NT\$912 per tonne, NT\$621 per tonne for cold-rolled sheets and coils — which are widely used in the automotive industry — and NT\$543 per tonne up for steel plates.

The company's latest price hikes came after its global peers raised their product prices.

US steel mills have increased prices for hot-rolled steel products by more than US\$66 per tonne, while Chinese steelmakers have boosted prices by between US\$20 and US\$30 per tonne after Beijing pledged to cut steel output by 3.5 million tonnes this year, CSC said.

A strong global economic recovery and relatively low inventory levels in major steel markets were two main reasons behind rising global steel prices, CSC said, citing an IMF report released in January that predicted the global economy would expand 3.9 percent this year, the fastest pace in seven years.

Global steel demand is forecast to grow by more than 1.5 percent this year, CSC said, citing statistics from ArcelorMittal SA, one of the world's largest steel and mining companies.

Global steel supplies are expected to remain tight in the near term, as some Chinese manufacturers have been forced to halt production during winter, CSC said.

# Japanese fasteners tackling electroplating plants decrease

Japanese electroplating plants are decreasing in numbers. This is a nerve-cracking problem for local fastener makers who need to outsource fastener electroplating. The shutdown of some electroplating plants in the Greater Tokyo Area forces fastener makers to select new partnering electroplating plants.

However, the status quo is that even with multiple electroplating partners at hand, electroplating speed is still unable to keep up with shipment. In order to postpone the shutdown of electroplating plants, some fastener makers even go as far as to throw funds into electroplating plants. The reasons for the increasing shutdown of electroplating plants include lack of successors, high cost and low profits, and problems with waste water discharge.

### Tokyo City University develops vibration simulation for bolt/nut

A research team at Tokyo City University has developed a simulation technology able to predict the speed of vibration at the time when a hammer hits a bolt or nut. The technology is expected to quicken the construction of multi-material structures and offer benefits for maintenance management of civil buildings.

The procedure of the simulation technology is to first input shape model, coefficient of elasticity, Poisson's ratio, surface roughness, axial bolt force, and then use C++ to calculate their values and predict the number of vibration (unit: Hertz). In this way there is no need to rely on stiffness and other data, and the user just has to correspond to the proper number of vibration to predict the proper fastening force.

# Hike in steel price: Indian Bizmen threaten to go on indefinite hunger strike from Jan. 11

City businessmen have sent a representation to the Prime Minister and the Union finance minister expressing disappointment over the price hike of Rs 7,000 per ton of iron and steel and requesting them to look into the matter in January.

The industrialists felt that the price hike is unjustified as prime steel producers have set up a cartel to take undue advantage of small scale manufacturers of various items. They have also decided to go on indefinite hunger strike from January 11, if their demands are not met.

This issue was the highlight in a meeting of various associations led by Fastener Manufacturers Association of India (FMAI), Chamber of Industrial and Commercial Undertakings (CICU) and United Cycle and Parts Manufacturers Association (UCPMA) that took place at the Punjab Trade Centre, Ludhiana.

Giving more details Narinder Bhamra, president of FMAI said, "It was suggested in the meeting that the export duty on exports of steel be imposed to check the export of steel from India. We have also requested the government for formation of steel regulator and bringing steel raw material under the essential commodities act. It was unanimously decided by all present that if our demand are not met, we will hold dharnas and go on an indefinite hunger strike from January 11."

### New EU anti-dumping rules signed off

The new legal framework for anti-dumping, designed to protect the EU against unfair trade practices, has been signed. It will come into force on December 20 of 2017.

The European Commission on December 13 signed the new legal framework on anti-dumping. The changes were officially approved by the European Council on December 4, after the European Parliament adopted the new directives in mid-November.

Europe has been struggling for a long time with the issue of how to deal with future anti-dumping procedures. This is primarily due to China, which has been promised market economy status by the World Trade Organization.

This recognition would make anti-dumping measures against Chinese imports into the European Union more difficult.

Consequently, under the new rules, the former distinction between market and non-market economies for calculating dumping, while maintaining the same level of protection for producers, has been removed.

"The Commission will now need to prove the existence of a 'significant market distortion' between a product's sale price and its production cost. On that basis, it will be allowed to set a price for the product by referring for example to the price of the good in a country with a similar level of economic development or to relevant undistorted international costs and prices," read a statement on the commission's website.

It added, "The Commission will also draft specific reports on countries or sectors describing distortions. In line with current practice, it will be for EU firms to file complaints, but they will be able to use the Commission's reports to support their case."

Having been signed on December 13, the new rules will come into force on December 20.◆

#### Nedschroef has added to over 50% of PMC's revenues

Ever since Shanghai Prime Machinery Company Limited (PMC) acquired Nedschroef in 2014, Nedschroef has added to over 50% of PMC's revenues. PMC president said he will continue to bring China's automotive orders to Nedschroef and expand the core automotive parts import market in China.

PMC plans to take on the next step and acquire CP Tech Gmb H, a high-end automotive engineering company, for 5.3 million Euros.◆

### **Hatebur integrates subsidiary**

atebur Metalforming Equipment Ltd. from Reinach, Switzerland, has reorganized its company structure. The Hatebur Swiss Precision AG assembly plant, which has been operating under its own name as an independent subsidiary, will be integrated into the parent company on January 1st 2018. The name of the manufacturing site for Hatebur machines will be removed from the market.

The assembly plant in Brugg will continue to operate and all staff will be retained. Plant manager Christian Bürgin will continue to manage the site.

The plant in Brugg has always and will continue to exclusively assemble forming machines for Hatebur. The manufacturing site, which was founded in 2012 and covers around 1600 m², is and will remain the assembly plant for small and medium-sized machines from Hatebur Metalforming Equipment Ltd., through to the Hotmatic HM 35 and Coldmatic CM 725.

### German industrial workers, employers agree to pay deal

German industrial workers and employers in the key state of Baden-Wuerttemberg reached a deal on pay and working hours, setting a benchmark for millions of workers across Europe's largest economy.

The deal averts more disruption at industrial giants from Robert Bosch to Daimler.

The agreement between labor union IG Metall and the Suedwestmetall employers' federation foresees a 4.3 percent raise from April and other payments spread over 27 months.

"Workers will have more money in their pockets in real terms; they will get a fair share of company profits; and that will boost consumption," IG Metall negotiator Roman Zitzelsberger told reporters after talks in Stuttgart on Monday that lasted 13 hours.

The deal covers half a million employees employed in southwestern Germany, home to Bosch and Daimler. Both sides said they will recommend its adoption across the country.

For employers, the challenge was to meet the union's

demand for more free time while already suffering from a shortage of skilled workers in some areas.

Workers will also be able to reduce their working week to 28 hours from the standard 35 to care for children, or for sick or elderly relatives, for a period of up to two years.

In return, employers will be able to take on more staff willing to work for up to 40 hours -- creating the flexibility they need to ramp up production during periods of high demand.

### **Bossard announces pending CEO transition**

Bossard announced that it will have a CEO transition in 2019. On April 8, 2019, current CEO David Dean will step down at his own request after 15 years with the company. On that date, he will be succeeded as CEO by Dr. Daniel Bossard, who was unanimously elected by the Bossard board of directors and has held a variety of senior management positions with the company since 2000.

David Dean CEO of Bossard

Daniel Bossard
Will become Bossard CEO on April 8,
2019

Dr. Daniel Bossard joined the company in 2000 as director of e-business. From 2003 to 2006 he was general manager of Bossard Denmark A/S in Copenhagen. From 2006 to 2008 he spearheaded the realignment of the sales strategies and the development of international customer relations in the Bossard Group. In the seven-member executive committee, Dr. Daniel Bossard has been responsible for the Northern and Eastern Europe market regions since 2009. Under his leadership, the company has achieved above-average sales growth and outstanding profitability in these countries.

Bossard reported its quarterly fiscal results on Jan. 11. For the full year, Bossard's 2017 sales of \$805.7 million increased 13.1 percent from 2016 (+12.2 percent locally), with U.S. sales up 18.4 percent to \$225.8 million (+18.4 percent locally). Bossard's fourth quarter total sales of \$201.4 million increased 10.3 percent year-over-year (+9.5 percent locally).◆

### Würth Group achieves records in sales and operating result

According to the preliminary annual financial statement, the Würth Group reports a sales volume of EUR 12.7 billion in 2017 (previous year: EUR 11.8 billion). This corresponds to a growth of 7.5 percent. Adjusted for foreign currency effects, growth comes to 7.9 percent. In particular, companies in Eastern and Southern Europe grew dynamically. With respect to the business units, Electronics

and Production show above-average growth rates.

According to preliminary calculations regarding the operating result, a new record amounting to EUR 760 to 770 million is expected. This is a considerable increase over the previous year (2016: EUR 615 million). In 2017, e-business sales grew above-average by 19.3 percent.

The number of employees increased by 2,634 from 71,391 to 74,025 in 2017. In Germany, the number of employees amounts to 22,620 corresponding to an increase by 4.3 percent. The Group currently has 32,295 sales force employees on the payroll.

The Würth Group is taking over the Ulm-based company Liqui Moly GmbH, purchasing all shares from the managing partner, Ernst Prost, effective as of 1 January 2018.

Würth Industry North America (WINA) on January 24 announced the appointments of Mike Buchanan and Miseal Mena to its senior leadership team.

### U.S. January Fastener Distributor Index posts strong gain

CH Sourcing Network and the National Fastener Distributors Association released their monthly Fastener Distributor Index (FDI) for January of 2018, showing a considerable increase over December.

The seasonally-adjusted January FDI showed a mark of 60.8, up from December's 57.6 and November's 56.9 — indicating continued market expansion and at an accelerated rate to start the year. These past two months of gains follow two-straight months of deceleration during October and November. Any reading above 50 indicates expansion, while any reading below 50 indicates contraction.

The FDI's Forward-Looking-Indicator — aimed to provide a directional perspective on future expectations for fastener market conditions — also showed continued optimism by showing a seasonally-adjusted reading of 64.7, up from December's 59.6.

According to the FDI, 82 percent of respondents said January sales were better relative to seasonal expectations, a major jump from only 43 percent who said so in December. That 82 percent mark is the highest recorded since the FDI's inception in 2015.

43 percent of respondents said sales were better relative to seasonal expectations, down slightly compared to 50 percent in November. But that is still considerably improved from the 31 percent average in 2016.

The strong January numbers coincide with Fastenal's January sales report it released recently, which showed daily sales improving 12.0 percent year-over-year at the company — its eighth-straight month with at least 12.0 percent growth.◆

### IFI names seventh managing director in its 86 year history

The Industrial Fasteners Institute (IFI) is pleased to announce the appointment of Kenneth J. McCreight as the association's new Managing Director. The IFI Board of Directors announced the selection following a considered and comprehensive search for a leader who understands the invaluable contributions the fastener industry makes to North American economy, and who can provide direction, motivation and new energy to the mission of the fastener industry association.

McCreight stated, "I am honored to be asked to serve as the IFI's next Managing Director. Virtually all my professional life has been dedicated to the service of others, and this will be a capstone in my career. Throughout the process of working with the recruiter and the search committee, it was quite clear to me that IFI is a high-quality organization with a culture of teamwork and collaboration, and a community of members that cares a lot about the organization and its mission."

# G.L. Huyett acquires MAK-A-KEY™ precision key stock from ITW Shakeproof industrial products

G.L. Huyett is pleased to announce that it has purchased the key stock business and associated trademarks from ITW Shakeproof Industrial Products. Trademarks include the trade name "MAK-A-KEY™" − the oldest and most well known key stock brand in the world. Founded in 1953, the brand popularized the concept of "Cut, File, and Fit!™" MAK-A-KEY is manufactured from precision quality steel and accounts for the widest product line available for nearly any aftermarket gearbox application.

Tim O'Keeffe, CEO of G.L. Huyett, noted that the acquisition is another addition to G.L. Huyett's current expansion, and comes on the heels of the purchase of Precision Specialties in Collierville, Tennessee, in 2015. "We continue to look for strategic fits to our product and service offering," said O'Keeffe, "We have distinct management support systems to ensure that the employees and customers of retiring entrepreneurs or divesting shareholders are well taken care of and embraced into our Culture of Excellence."

ITW Shakeproof Industrial Products is a division of Illinois Tools Works Inc., specializing in the manufacture of specialty cold-headed products; wire forms including cotter pins; and helical split lock washers.

### **Anderson Metals privately acquired by Wynnchurch Capital**

Wynnchurch Capital, LLC, recently announced that it has completed an investment in Anderson Metals Corporation, Inc. Anderson is a manufacturer of brass fittings, valves, pipe nipples and related products to the plumbing, hardware and general industrial end-markets. The company is headquartered in Kansas City, MO and was founded in 1947.

Anderson Metals Corp. supplies more than 12,000 SKU's across a variety of categories including lead-free and leaded brass fittings, valves, pipe nipples, non-metallic fittings and assorted parts and accessories.◆

### Fastenal sees daily sales rise 12% in January, promotes Blue Team

astenal posted total January sales of \$394.4 million, up 17.4 percent year-over-year, while daily sales increased 12.0 percent. That daily sales increase was at least 0.8 percentage points slower than the previous seven months, but still the eighth straight month with at least 12.0 percent growth.

Fastenal's January daily sales increased 10.5 percent in the U.S. and 11.6 percent throughout North America.

By end market, January sales to manufacturing customers grew 13.3 percent, compared to 16.2 percent in December. Sales to non-residential construction customers grew 7.9 percent, compared to 11.9 percent in December.

By product line, January fasteners sales grew 10.1 percent, compared to 14.0 percent in December. Sales of other products grew 13.7 percent in January, compared to 15.5 percent in December.

Unlike previous monthly reports, Fastenal's January report did not include breakout statistics for number of branches opened or total branch count. In the company's Q4 and full year 2017 earnings report posted Jan. 17, the company had opened three branches in Q4 and closed 37, with its total public branch count at 2,383 at the end of the year.

Fastenal ended January with a total company headcount of 20,565, up 4.8 percent YoY. Branch and Onsite personnel count of 11,549 was up 7.0 percent, while total selling personnel of 13,225 was up 7.3 percent.

On Jan. 25, Fastenal posted a pair of short videos on its YouTube channel promoting its local Blue Teams. With the lead-up to the Super Bowl in-mind, Fastenal presents a local Blue Team in a football starting lineup announcement format.

### Stanley B&D grows sales 17% in Q4, acquires Nelson Fastener Systems

Stanley Black & Decker (SBD) reported its 2017 fourth quarter and full year financial results on Wednesday, showing continued accelerated growth for the industrial supply giant, while it also announced a major acquisition of a fastener supplier.

In Q4, the company posted total sales of \$3.41 billion, up 17 percent year-over-year (YoY), powered by nine percentage points of growth from acquisitions, nine points of growth from volume and three points fo growth from currency, partially offset by a three-point decline from divestitures and one point from price. SBD had Q4 organic sales growth of 7 percent, identical to the previous two quarters. SBD's total Q4 profit of \$281.5 million jumped 10.2 percent, gross margin dipped to 0.3 percent from a year earlier to 36.6 percent and operating margin dipped 0.2 percent to 13.3 percent of net sales. •

# wire and Tube Southeast Asia 2017 registered record-breaking visitor count: Delivers in line with strong prospects in the region

Wire and Tube Southeast Asia 2017 – the 12th International Wire and Cable Trade Fair for Southeast Asia and the 11th International Tube and Pipe Trade Fair for Southeast Asia came to a successful close on 21 September 2017.

Together, the synergistic, co-located trade fairs unveiled an all-encompassing exhibit range that was presented by 400 leading industry names from 30 countries - of which 95% came from outside Thailand, as well as national pavilions and country groups Austria, Mainland China, Germany, Italy, Chinese Taiwan, UK and USA. Testament to the trade fairs' standing as the region's definitive sourcing and procurement platform for the industry, wire and Tube Southeast Asia 2017 recorded attendance of 8,458 trade visitors from 50 countries, with 39% coming from overseas, including visiting delegations from Vietnam, India, Japan, Thailand and Malaysia. This year's overall visitorship showed a healthy increase of close to 20% as compared to 2015, with local demand manifested by 65 local group visits from Bangkok Cable, Phelps Dodge International, Thai Wire Products, Thai Yazaki Electric Wire, The Siam Industrial Wire, among others.

Thailand's industries will be further strengthened as the country gears up to implement Thailand 4.0. As value creation and innovation take centre stage in driving industries' development, wire and tube manufacturers and processors have the opportunity to be the industry leaders in introducing 4.0-standard manufacturing and automation systems. Sectors ranging from building and construction,

telecommunications, transportation, electronics and many more will benefit from the technological developments undertaken by wire and tube suppliers in Thailand.

China Fastener Info (CFI), as one of the media partners, attended the exhibition with its popular magazines *China Fastener Directory (CFD)*. As usual, CFD magazines were very popular. While recommending suitable suppliers to visitors, we were also inviting them to our upcoming Fastener Shanghai – Shanghai Fastener & Tech Show to be scheduled on September 26-29, 2018 at Shanghai New International Expo Center, which will be concurrently held with wire & Tube China 2018.

With an established history of over two decades in Southeast Asia, and driven by the global credentials of the world's leading trade fairs in the wire and tube sectors, wire Düsseldorf and Tube Düsseldorf, the staging of wire and Tube Southeast Asia 2019 strives to address major, upcoming trends, challenges, and opportunities for companies to consider. Working hand in hand with international industry partners and supporting industry associations, the line-up at the 2019 edition of the world-class trade fairs will showcase one that indicative of the upcoming economic climate and industry progressions.

wire and Tube Southeast Asia 2019 will take place from 18 – 20 September at BITEC, Bangkok. To exhibit and/or visit, please visit www.wiresoutheastasia.com | www.tube-southeastasia.com◆

# 12,565 industrials united at METALEX Vietnam 2017

11th edition of METALEX Vietnam has been conducted from 12 - 14 October at Saigon Exhibition and Convention Center (SECC), with 12,565 phenomenal quality visitors, and the presence of leading pioneer brands has provided encouraging impetus to the manufacturing industry.

The powerful combination of three shows, "METALEX Vietnam 2017", "Electronics Assembly 2017" and "Industrial Components & Subcontracting Vietnam 2017" as well as the constellations of technology providers representing 500 brands from 25 countries, accompanied by 10 International Pavilions from 7 countries and territories Mainland China, Germany, Japan, Korea, Singapore, China Taiwan and Thailand was successfully to introduce advanced metalworking solutions, latest electronics assembly technologies and high quality industrial grade parts.

Mr. Suttisak Wilanan - Deputy Managing Director of the organizer Reed Tradex shared the result "After three informative trade fair days, the Vietnam's international metalworking trade exhibition - "METALEX Vietnam 2017" reported record new visitor number at 12,565. Meanwhile, the group visitor numbers have risen by 7%, recorded at 275 groups, underlining the trade fair's status as one of the most important industry events for manufacturing community in Vietnam. More and more trade visitors are also coming from abroad (34 countries), apart from Vietnam, visitors predominantly came from Japan, China, Singapore, Korea and Thailand."

Alongside technology adoption, manufacturers and industrialists across Vietnam and ASEAN can receive new inspirations from the new features, which are added, to strengthen their productivity and networks together with business delegations from diverse industry.

The next edition of "METALEX Vietnam 2018" will be held from 11 − 13 October 2018 at Saigon Exhibition and Convention Center (SECC) in Ho Chi Minh City. More on the trade fair at www.metalexvietnam.com◆

Vietnam's International Exhibition on Machine Tools & Metalworking Solutions for Production Upgrade – 12th Edition

### 20th Manufacturing World Osaka Breaking its Records with 1,226 Exhibitors & 36,936 Visitors

#### ■ Western Japan's largest manufacturing industry show!

"20th Manufacturing World Osaka" is Japan's leading trade show for manufacturing industry held at INTEX Osaka (Japan) from October 4th to 6th, 2017. Osaka is known as one of the central areas of Japanese manufacturing industry.

The number of exhibitors and visitors recorded the largest number in its history, respectively 1,226 and 36,939. The show ground was completely full occupied by exhibit booths (sold out all exhibit spaces) and the show was completely packed by exciting atmosphere.

### ■ Business meetings were seen everywhere throughout the halls

Since this show is recognized as a must-attend show for manufacturing industry, most industry professionals not only from exhibitor side, but also from visitor side participated in 20th Manufacturing World Osaka. Therefore, business meetings were seen everywhere in the show venue.

■ World's highest quality technologies, solutions and products were exhibited!

Japanese manufacturers known as the most strict standard

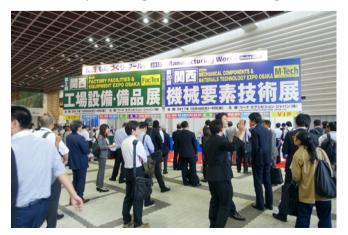

for the quality, exhibited their latest technologies, solutions and products. 20th Manufacturing World Osaka was surely the place where visitors could meet the world's highest quality technologies.

#### International business expands

Various foreign associations, governmental bodies participated at the show in order to invest deeper into the Japanese/Asian market and also held various official meetings.

A number of countries held national pavilions to illustrate their devotion towards the Japanese market and gathered exhibitors representing their countries or regions. This

year MAINLAND CHINA, CHINA TAIWAN, SOUTH KOREA, THAILAND, and VIETNAM had their pavilions.

Reaching the growing need for overseas transactions which will become increasingly important, overall the international participation of both exhibitors and visitors for instance have been continually expanding. This trend is expected to become even larger in the future.

### ■ Technical conference attracted huge number of attendees

17 conferences/seminars were held together with the trade show. Top industry leaders from global leading manufacturers such as NIKON, BOSCH, KONICA MINOLTA, OKUMA, KOMATSU, OLYMPUS, KAWASAKI HEAVY INDUSTRIES, FUJITSU, CANON, MITSUBISHI ELECTRIC,MAZDA MOTOR, etc. revealed their latest topics for manufacturing innovation, IoT technology, smart factory, IT strategy for manufacturing industry etc. 7,301 attendees joined the seminar. ◆

"Manufacturing World" is world's leading manufacturing industry show held three times a year in Tokyo, Osaka and Nagoya.

Manufacturing World Nagoya 2018
Dates: April 11 (Wed) – 13 (Fri), 2018
Venue: Portmesse Nagoya, Japan

Manufacturing World Japan 2018 Dates: June 20 (Wed) – 22 (Fri), 2018 Venue: Tokyo Big Sight, Japan

Manufacturing World Osaka 2018

Dates: October 3 (Wed) – 5 (Fri), 2018

Venue: INTEX Osaka, Japan

## 2017 International Fastener Expo Wrap Up

From October 17 through 19, North America's largest and most well-known gathering of fastener industry professionals returned to Las Vegas for the 37th consecutive International Fastener Expo. China Fastener Info attended the show as official media partner, unveiling the 103rd global trip of China Fastener Directory.

#### Record-breaking Attendance and Increase in Executive Presence

It was a packed floor with a record-breaking 5,000+ in attendance, 2,500+ qualified decision makers, and over 750 exhibitors. A 26% increase in attendance over the past two years. Since 53% of attendees were executive management, it made for invaluable introductions and more commerce than ever done directly on the show floor. Exhibitors and attendees gathered in the expo hall for the Demonstration Zone, sales conversations, Young Professional and Hall of Fame award ceremonies, welcome events, happy

hours, and cutting-edge education sessions. Over 1,000 people attended the opening night industry party with an open bar, whiskey tasting, and cigar rolling. Emerald Exposition's strategy to co-locate with MetalCon proved highly successful, producing the busiest show floor IFE has ever seen.

Under the Emerald Expo's new VIP strategy, IFE attracted dozens of C-Level teams from massive distributors like Optimas Oe Solutions and Wurth Industry North America, including their CEO's, who walked the show floor this year for the first time. In fact, 55% of the largest 50 distributors in the world attended IFE 2017.

#### What Attendees Had to Say

The #1 reason people return to The International Fastener Expo year after year is the unmatched opportunity for relationship-building that happens when thousands of exhibitors and attendees from up and down the

entire supply chain gather. In 2017 we put a priority on the kind of face time that gets real results, with a "personal reach" format. Attendees told us it worked: "This expo provides so many opportunities to network and meet with new suppliers that I don't get to see. I was able to find a new supplier for custom parts and place the order before I left," said Craig Christensen, President of Trinity Fastener. Likewise, Bob Valentine, President of MC2 reported, "It's my first time visiting the expo and I found three new machinery resources. I'm looking forward to next year - I'll be there!"

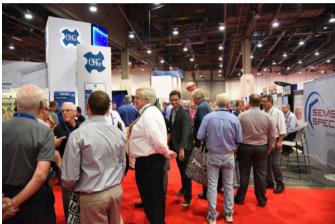

#### **Announcing IFE 2018!**

Planning for next year's expo is already underway. From October 30 – November 1, IFE 2018 will be held at Mandalay Bay Resort. In anticipation of high crowds around one of Vegas' most colorful holidays, Emerald Exposition has already secured a discounted room rate just for IFE attendees in 2018. Visit

fastenershows.com to reserve your room for 2018.

Following the 2017 strategy that increased foot traffic to record numbers, the 2018 Expo will be held in conjunction with another event: the 70,000 vendors and buyers who gather for the SEMA Show. We will also be expanding the Global Source area, making IFE a global presence and marketplace, right here in the U.S.A., saving you valuable travel time and expense.

IFE's two and a half days will build on personal connections to go from innovation to supply chain globalization. On the first day, exhibitors will have a chance to set up their own booths as always, but will also have the chance to attend an expo "Preview Day" that will give them private access to Source Global as well as machinery vendors they don't usually have time to see during the busy expo hours. We will also have the traditional welcome reception for all IFE participants. The second day will open the entire show floor and include the traditional award presentations. Day three will include another day of busy floor activity on the entire show floor. Throughout the expo we will have an enhanced education track that will focus on skill gap challenges, overcoming manufacturing technology, and tackling e-commerce. Bottom line, IFE 2017 was a huge success because of our amazing industry community, and IFE 2018 is repeating those strategies to remain the largest expo in North American ever to connect the entire supply chain. So if you're a fastener industry professional of any kind, along with any link in the supply chain, IFE 2018 is the one big event of the year that you can't afford to miss in 2018. With 65% of last year's exhibitors already contracted to have booths in 2018, we don't want you to miss out!

For more information of IFE, please visit www.fastenershows.com◆

## The 17th Fastener Trade Show Suzhou Focusing on End Users, Building a Global Fastener Trade Platform

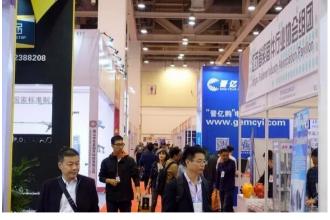

The 17th Fastener Trade Show Suzhou, successfully held during 26-28 October 2017 at Suzhou International Expo Center, Jiangsu Province, China, was highly praised by exhibitors and visitors for its popularity and professionalism. Focusing on end users and building a global fastener trade platform were the highlights of the show.

As a large international fastener specialized exhibition, the 17th Fastener Trade Show Suzhou connected the upstream and downstream of fastener manufacturing industry. Some of the well-known fastener brands at the event included Meishan CRRC, Yuyao Xintai, Suzhou Zhihuidingfeng,

Jiashan Yongxin, Gem-Year, Aozhan Industrial, Shanghai Chengtai, Dongguan Guanhong, Haining R-Best, Suzhou SIP Linquan, Dongtai Huawei, Zhejiang Chaoboer, Jiashan Chaoyi, Dongguan Boito, Dongguan STL, Wenzhou Fengding, Wenzhou Xinzhong, Pinghu Kangchengda, Zhejiang Sardis, Dongguan Yaxin, Yongnian Yiheng, Yuyao Alfirste, Ruian Feichi, Ningbo Taida, Wenzhou Yonghong, Haiyan Reegu, Jiaxing Xingxin, Wenzhou Shengnan, Kunshan Hengshun, Wuxi AMDA, Haiyan Julong, Haiyan Fastener, Zhuji Huangshan, Yantai Qixia Copper, Suzhou Sanyou, etc.

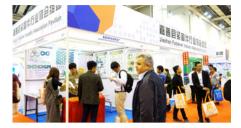

#### Exhibitions

In addition, numerous machinery and fastener auxiliary brands also participated in the exhibition, such as Ningbo Sijin, Ningbo Tenggong, Zhejiang Yeswin, Biing Feng, Carlo Salvi, Jin Chi, Shanghai Feiyu, Ningbo FARC, Zhejiang Dongrui, Dongguan Donglong, Taiwan Huihung, Wenzhou Longhui, Dongguan RKE, Dongguan Jinda, Dujiangyan Beyond, Shanghai Yuezhan, Huangshan Shengrui, Chin Fung, Dongguan Tairong, SamChang, Jinan CJR, Shenzhen Zhonggang, Dongguan Luosi, etc.

This year's show also saw stronger group participation with association pavilions from Jiashan, Pinghu and Jiangsu, demonstrating their regional industrial characteristics.

The popular activity "Automotive Fastener Application Conference" was held concurrently during the first two days of the exhibition, providing a feast of technical training and information exchange. Four topics including "Inspection and Assessment of Automotive Fasteners", "Fundamental of Thread Joint Technology and Friction Coefficient", "Automotive Fastener Business Management", and "Development of Automotive Fastener Processing Technology", were discussed by experts from well-known automotive manufacturers and fastener companies. The conference attracted more than 500 professional attendees, guiding the directions for automotive fastener companies in terms of technological development.

According to the statistics, visitors mainly came from industries such as machinery, automobile, motorcycle, construction, electrical appliance and electronics, hardware, rail transit, aerospace, military, ship building, wind power, petrochemical, instrument and apparatus, professional trade, measurement and control, etc.

The Suzhou event saw significant growth in the number of overseas visitors. Visitors from 40 countries and regions attended the 2017 show, covering Germany, Italy, Netherlands, Spain, France, Portugal, Russia, Romania, Ukraine, Belarus, USA, Canada, Australia, Japan, South Korea, Thailand, Vietnam, Singapore, India, Indonesia, UAE, Saudi Arabia, Pakistan, Bangladesh, Sri Lanka, Philippines, Uzbekistan, Iran, Iraq, Taiwan, Hong Kong, Egypt, South Africa, Morocco, and even South American countries of Brazil, Argentina, Chile, Columbia.

We would like to thank you for your participation and support and look forward to seeing you again next year!

# On-going Booth Reservation and Increasing Visitor Registration! Fastener Shanghai – Shanghai Fastener & Tech Show 2018 Preview

Jointly organized by China Fastener Info, Messe Düsseldorf (Shanghai) Co., Ltd. and Shanghai Electric Cable Research Institute Co., Ltd., Fastener Shanghai – Shanghai Fastener & Tech Show 2018 will take place from September 26-29, 2018 at Shanghai New International Expo Center, China.

Concurrently with Asia's largest and most international trade fair for wire and tube industries – wire & Tube China, Fastener Shanghai – Shanghai Fastener & Tech Show 2018 is designed to open up upstream and downstream channels to create a one-stop sourcing platform for fastener products, manufacturing equipment and raw materials.

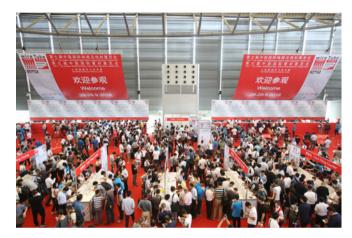

Products to be showcased at this high-quality platform will mainly focus on the following categories:

#### • Standard and Non-standard fasteners

Bolts, nuts, screws, studs, threaded rods, pins, rivets, washers, retaining rings, assembly and connection, welding nails, stamping parts, lathe parts, hose clamps, innovative and non-standard products.

#### • Fasteners in various industries

Fasteners in industries like automobiles, motorcycles, machinery, high-speed rail, buildings, steel structure,

hardware, electronics and electrical appliances, aerospace, wind power, ships.

#### • Manufacturing skills of fasteners

Cold headers, molding machines, heading machines, thread rolling machines, thread rollers, tapping machines, combination machines, grinding machines, milling machines, vibrating plates, heat treatment equipment, surface processing equipment, wire drawing equipment.

#### Supporting facilities of fasteners

Molds, surface treatment, raw materials, hardware tools, testing equipment and measuring equipment, screening machines, packaging units, computer software, and other factory equipment.

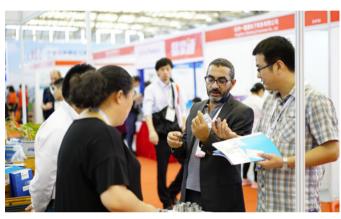

Here is a glance of some of the confirmed exhibitors: Zhejiang Yeswin, Ningbo Sijin Intelligent, Dongguan Biing Feng, Ningbo Weifeng, Yuyao Xintai, Dongguan STL, Zhejiang Chuangxin, Wuxi Anshida, Dongguan Boito, Bonuts Hardware, Yantai Jailoone, OUCE, Wenzhou Jianzi, Ruian Xintai, Ningbo Lingqi, Guangdong Hejin, Shanghai Bairoe, Zhuji Huangshan, Jiashan San Yung, Ruian Zhufeng, etc.

Among them are many manufacturers who are looking

to enhance their presence at the exhibition by increasing their display area. This not only reflects Fastener Shanghai's industry appeal, but also the positive trend in the fastener market!

In addition, Fastener Shanghai – Shanghai Fastener & Tech Show 2018 will also present special regional pavilions, such as Pinghu, Jiashan, etc. demonstrating their local industrial advantages.

#### 46,000 professional buyers will be gathering at Shanghai in September!

The biennial Fastener Shanghai – Shanghai Fastener & Tech Show is set to be one of the most important gatherings in the fastener industry. It is estimated that 3 events (including Fastener Shanghai – Shanghai Fastener & Tech Show 2018, wire China 2018,

Tube China 2018) will attract 46,000 professional visitors from 95 countries and regions. Whether you're here to source, find partners, or familiarize yourself with the Chinese fastener market; your expectations will surely be met at Fastener Shanghai – Shanghai Fastener & Tech Show 2018.

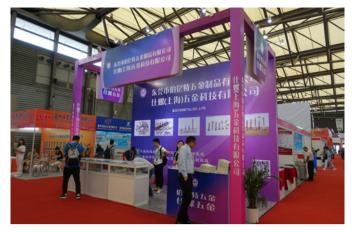

#### Register now for FREE Admission, FREE Show Catalog and Souvenir!

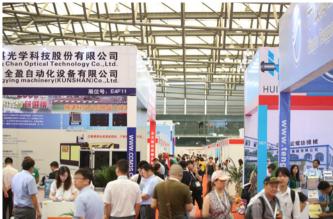

Please visit official website www. fastenertradeshow.net to finish the online visitor registration. You will receive a confirmation letter with your register code and please claim for your badge by this letter at 'PRE-REGISTERED VISITOR' counter onsite.

#### **About Organizers**

Established in 1998, China Fastener Info has now grown into a threedimensional media featuring "Website + Magazine + Trade Show", with the number of registered membership surpassing 100,000, including more than 3,000 international buyers. So far, China Fastener Info has successfully held 17 Fastener Trade Shows, with the number of exhibitors and visitors taking the lead across the globe in the same kind of exhibition. Through holding fastener exhibitions, China Fastener Info has achieved a seamless connection between fastener suppliers and purchasers online and offline.

All China - International Wire & Cable Industry Trade Fair (wire China), organized by Messe Düsseldorf (Shanghai) and Shanghai Electric

Cable Research Institute, is a whole industrial chain display platform, which ranks first in Asia and second in the world and features wire manufacturing and finishing, metal processing tools, materials, special wires, measurement and control technology and automation equipment. wire China is a world's leading trade exhibition which puts technology in the first and integrated the most advanced and innovative technologies of the world.

## DINGTOUR HARDWARE COLLED

DINGTOUR Hardware is a manufacturer & exporter of various machine parts. It's located in Haiyan county of China. We have excellent capability and ability to produce standard and complicated products with advanced equipment and technology. Our team has over 8 years exporting experience in the hardware industry, so we could manufacture fasteners according to customers' requirements.

We provide many kinds of threaded parts by forging machines, and most products are applied to hydraulic system, automobile industry, machinery and other fields. Our products are well sold all over the world.

WIN—WIN is DINGTOUR's business philosophy, we are planning to build an integrated supply chain with various factories. Vast manufacturing capability, advanced information system, strict quality management and humanistic solution are our advantages.

Welcome to visit us!

As a professional manufacturer of parts, we focus on improving quality+price+service

## China Fastener Imports and Exports Both Increase

China's fastener trade in 2017 posted steady recovery with the imports and exports both experiencing positive growth.

According to data from the Customs, China's fastener exports increased 5.84% to 2,909,178 tons with value of 5,053,600,435 US dollars in 2017, up 11.30% year-on-year. The top five fastener export destinations were US, Japan, Russia, Germany and South Korea.

Zhejiang was the largest exporting province with the fastener export value of 2.5 billion US dollars in 2017. The other top exporting areas were Jiangsu (619 million US dollars), Guangdong (528 million US dollars), Shanghai city (498 million US dollars) and Shandong (241 million US dollars).

In 2017, China's fastener imports rose 6.31% to 322,682 tons with the value of 3,121,273,161 US dollars,up 6.22% year-on-year. The top five fastener import origins were Japan, Germany, US, Chinese Taiwan and South Korea.

Shanghai city was the largest importer of fasteners in China with the import value of 609 million US dollars. The other top importing areas were Jiangsu (544 million US dollars), Guangdong (483 million US dollars), Beijing city (214 million US dollars) and Liaoning (199 million US dollars).

Code: 7318 - Screws, Bolts, Nuts, Coach Screws, Screw Hooks, Rivets, Cotters, Cotter Pins, Washers And Similar Articles, Of Iron Or Steel

## Global Automotive Aftermarket Worth \$486.36 Billion by 2025

The global automotive aftermarket size is expected to reach USD 486.36 billion by 2025, according to a new report by Grand View Research, Inc., registering a 4.2% CAGR during the forecast period. Digitalization of automotive repair and component sales has been brought on by the incorporation of advanced technologies; this is slated to boost market growth. Surging reception of electric and hybrid vehicles as well as semi-autonomous and autonomous cars in the years to come is further expected to bolster market growth. Based on replacement parts, the market can be categorized into tire, battery, brake parts, filters, body parts, lighting and electronic components, wheels, exhaust components, and turbochargers.

Increasing vehicle sales are driven by overall improvement in living standards, especially in developing countries such as India and Brazil. This has driven the global automobile industry. Similar growth in automotive manufacturing across various regions, along with increasing stringent emissions norms, is

expected to drive automotive aftermarket component sales over the forecast period.

Asia Pacific is expected to be the fastest growing market for automotive collision repair services over the forecast period, owing to high vehicle production, rising road accidents, and improving living standards of consumers. It is also anticipated to be the fastest-growing market in automobile production. With growing penetration and acceptance of gas and hybrid/electric cars, specialized repair centers are expected to increase.

#### **Further Key Findings From the Report Suggest:**

- The automotive aftermarket is estimated to grow significantly over the forecast period, owing to an increase in number of lightweight vehicles.
- North America has a higher technology adoption rate, which is anticipated to result in faster and higher adoption of hybrid/electric automobiles in the region.
- The global automotive aftermarket is anticipated to be driven by mushrooming specialized automotive collision repair centers dedicated toward serving specific vehicles such as alternate fuel powered vehicles.
- Key industry participants include Magneti Marelli S.p.A., Continental AG, 3M Company, Federal-Mogul Corporation, Delphi Automotive PLC, Robert Bosch GmbH, and Denso Corporation. ◆

## EU Fastener Trade Statistics during 2015-2017

S 7318: Screws, bolts, nuts, coach screws, screw hooks, rivets, cotters, cotter pins, washers (including spring washers) and similar articles, of iron or steel.
